

the Natural Wastewater Treatment Solution

Developed in collaboration with the Louis Pasteur Institute, NeoBio™ is a powerful ready-to-use, wide scope action natural wastewater treatment.

Natural microorganism ecosystem

NeoBio™ is made of more than 20 strains of Class 1 natural microorganisms. Their action is targeted at exclusively digesting organic waste matter. NeoBio™ is harmless to humans, animals, fish and plants.

Conforms to European Community safety standards, certified by Thai FDA and Department Of Agriculture since 2009.

Instant benefits, long-term action

- eliminates smell in 4 to 6 hours
- reduces sludge volume by up to 60%
- inhibits pathogenic bacteria
- reduces BOD, FOG, TKN, ...

Easy to use, eco-friendly, efficient

NeoBio™ is available in ready-to-use water-soluble bags containing 25 grams of solid powder. The application is easy and requires no preparation or protective equipment: drop one bag per holding tank cubic meter, every 2 weeks, directly into tank or influents. NeoBio starts working immediately.

eliminates odor
