

Spotless™ Wood Marine Nano Wood Protection

Ref.70034: Spotless™ Wood Marine
Ref.70035: Spotless™ Wood Marine AG+

before

after

Long-term wood protection in aquatic environments.

For all types of wood: terraces and pool decks,
furniture, boat decks, fences, ...

100% environment-friendly !

Description:

Spotless™ Wood Marine is a high performance German nanotechnology wood protection from environmental aggressions.

It complements the benefits of Spotless™ AntiGrey (ref.7004-7) UV protection in aquatic environments.

Spotless™ Wood Marine protects wood from water, oil, coffee, wine, soda, sea water.

Spotless™ Wood Marine AG+ adds anti-bacterial properties to prevent mold, fungus and algae. It is particularly recommended for pool decks where people walk barefoot.

Main benefits

- ✓ water and oil-repellent
- ✓ transparent, invisible sealant
- ✓ resists abrasion, salt for up to 3 years
- ✓ easy-to-clean, stain-proof
- ✓ non-toxic, compliant to children toy safety standard DIN EN 71 §3 & 9
- ✓ lets wood breathe, does not create a film

Composition:

Co-hydrolyzed silane, acetone <10%, ethanol<10%, aqueous preparation.

Packaging:

5L to 1,000L containers.

Maintaining sealed surfaces

Sealed wooden surfaces can be easily cleaned with water and a soft sponge. No cleaning chemicals are needed anymore. For persistent stains, use mild chemicals in order not to erode the water-repellent effect.
